</table>
SEAOHUN-OHW ACTIVITIES

1) Formation of One Health Platforms between SEAOHUN university networks and national governments to assess workforce needs and develop country workforce plans;

2) New development of one health course modules embedding into curricula, research programs and community outreach efforts;

3) Access to advanced degree trainings through online and field-based training programs, with the expectation that international MPH programs will be promoted among member networks;

4) Enlargement of the network activities to additional faculty members, schools, institutions and countries;

5) Organizational assessments for project implementation as well as for the entire network.
