Science, Technology
and Research

WHO?

Let our **illustrious speakers** enlighten you, animate and enliven discussions over the week: managers from international companies, investors, innovation support intermediaries, representatives of governmental agencies, directors of research institutes and researchers in Europe and Asia.

Check our website for updates and the list of our **eminent guests**.

WHAT?

Two annual conferences in one week.

The TII 2015 conference will bring together policy makers, industry specialists, academics and innovation support practitioners to share new trends and developments that improve innovation outcomes for the benefit of science, business and society.

Call for contributions open!

Tackle pertinent challenges in **bio sciences** during 2 days through lectures, panel discussions, workshops and poster sessions.

This conference will conclude with **the launch of the Bio-Asia call for proposals** which funds research mobility between France and Asia.

Call for abstracts open!

WHERE?

You will be welcomed into the heart of **Biopolis cluster**, where cutting edge research is carried out daily. A half-day **visit of research facilities** awaits you!

WHEN?

From **18 to 22 May 2015**. Maximize your time!

18-20 is dedicated to Innovating Innovation

20-22 is focused on Bio-Asia by IFS
